Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted applicant for approval for an examiner's amendment to claims 1, 7, 13, 19 and 20. See attached Examiner's amendment for the details of the changes. Changes were made to clarify the language of the claims. Examiner requested that we put the limitations of claim 7 into claim 1. Also, requested adding the limitation that the bottom of the tube substantially contacts the ground surface. The remainder of the proposed changes merely clarify the language of already presented concepts within claims 1, 19 and 20. Applicant representative's telephone was broken so approval for the examiner's amendment was given via e-mail..
